Projection Displays

Display Electronics, Systems and Applications

Applied Vision / Human Factors / 3D Displays

Display Materials and Components

Display Manufacturing and

Measuring Equipment

Novel and Future Displays

IMiD Business Forum 2008

FPD Standardization Forum

Exhibition

Dear Colleagues,

I am pleased to announce the 8th International Meeting on Information Display, International Display Manufacturing Conference and Asia Display (IMiD/IDMC/ASIA DISPLAY 2008), to be held from 13 – 17 October 2008 at the Korea International Exhibition Center (KINTEX) in Ilsan, Kyunggi Province.

IMiD/IDMC/ASIA DISPLAY 2008 will take place in conjunction with the Korea Electronic Show, which features exhibitions and seminars on semiconductors, consumer electronics, and telecommunications. This new format is expected to provide IMiD/IDMC/ASIA DISPLAY 2008 participants with greater opportunities to experience and discuss state-of-the-art information display technologies.

IMiD/IDMC/ASIA DISPLAY 2008 is being organized by the Korean Information Display Society (KIDS) and the Society for Information Display (SID). As with our previous IMiD meetings, IMiD/IDMC/ASIA DISPLAY 2008 consists of tutorials, workshops, technical conference sessions, and exhibitions that are aimed to cover the most recent findings and significant developments in all aspects of display technologies, manufacturing equipments and processes, materials & components, and applications. Additionally, the IMiD Business Forum with DisplaySearch is going to provide comprehensive coverage of business aspects associated with information displays. These programs will afford researchers and engineers with ample opportunities to share their creative ideas and pioneering work, and will also enable information display exhibitors to reach an expansive audience.

As program committee members, we will spare no effort in making IMiD/IDMC/ASIA DISPLAY 2008 a successful and rewarding conference for all participants, who will undoubtedly enjoy our spacious facilities at the KINTEX complex, located approximately 20 kilometers west of Seoul. We look forward to seeing you at IMiD/IDMC/ASIA DISPLAY 2008.

Oh-Kyong Kwon

Executive Committee Chair of IMiD/IDMC/ASIA DISPLAY 2008
