

**Session 37**

**37. Flexible Display I**

**Thursday, October 13, 2011 / 13:30 ~ 15:00**

**Room 301**

Chairs: Chung Kun Song (Dong-A Univ., Korea)  
Janos Veres (PARC, USA)

- 
- 13:30 ~ 13:55**    **37-1**    **[Invited] Organic Transistors Optimized for Channel Materials and Interfaces**  
*Yu Xia, Damien Boudinet, He Yan, Zhihua Chen, Yan Zheng, Jordan Quinn, and Antonio Facchetti (Polyera Corp., USA)*
- 13:55 ~ 14:20**    **37-2**    **[Invited] Lamination Process and Organic Transparent Electrodes for New Organic Light-Emitting Diode Applications**  
*Wataru Mizutani, Kiyomi Tsukagoshi (AIST, Japan), Kazumi Aoba, Hideki Sakai, Takashi Ohmori, Hayato Hyakutake (Denshi Kako, Co.,Ltd., Japan), and Heeyeop Chae (Sungkyunkwan Univ., Korea)*
- 14:20 ~ 14:40**    **37-3**    **Transport of Particles and Micelles in Electrophoretic Displays**  
*Yoocharn Jeon, Patricia Beck, Zhang-Lin Zhou, and Richard Henze (Hewlett-Packard Company, USA)*
- 14:35 ~ 15:00**    **37-4**    **[Invited] Ink-Jet Printing of Active and Passive Layers for Flexible Organic Electronic Devices**  
*A. Wedel, B. Fischer, S. Kreissl, A. Lange, and C. Boeffel (Fraunhofer-Inst. for Applied Polymer Research, Germany)*
