

# iMID 2018

August 28 - 31, 2018 / BEXCO, Busan, Korea

<b>Company Name</b>	Korea Photonics Technology Institute
<b>Address</b>	9, Cheomdanventure-ro 108beon-gil, Buk-gu, Gwangju, Korea
<b>President</b>	Youngsun Kim
<b>Website</b>	<a href="http://www.kopti.re.kr">www.kopti.re.kr</a>
<b>E-mail</b>	<a href="mailto:ywkim@kopti.re.kr">ywkim@kopti.re.kr</a>
<b>Telephone</b>	+82-62-605-9344
<b>Fax</b>	+82-62-605-9719
<b>Exhibitor Introduction</b>	<p>Korea Photonics Technology Institute (KOPTI) was founded by the Ministry of Trade, Industry and Energy in 2001. KOPTI is the specialized technology institute for Optics and Photonics technologies which have been designated as one of Korea's new growth engine. After relocation to the new place located in Gwangju metro city in 2004, KOPTI begun to their missions and now 262 people (70% of PhD &amp; MS) are engaging photonics works.</p> <p>In particular, KOPTI has supported the needs of the industry by developing technologies, supporting development of productions and building an industrial base for new markets. Also, In terms of technological development, KOPTI has focused on LED, LED display, OLED, optical communications, IR optic lens, laser, intelligent optical sensor, 3D convergence, medical photonics and solar cells.</p>
<b>Exhibit Product</b>	<ul style="list-style-type: none"><li>- micro-LED Display</li><li>- micro-LED Display Module</li></ul>
