

iMiD 2022

The 22nd International Meeting on Information Display
August 23-26, 2022 / BEXCO, BUSAN, KOREA

Company Name	Display Material Laboratory, Chung-Ang University	Company Logo  중앙대학교 디스플레이 재료 연구소 Chung-ang University Display Material Laboratory
Address	84 Heukseok-ro, Dongjak-gu, Seoul, Korea	
President	Professor Jaesoo Yoo	
Website	https://caudml.wixsite.com/cau- display-material	
E-mail	jsyoo@cau.ac.kr	
Telephone	+82 10 7277 5274	
Fax	-	
Exhibitor Introduction	<p>The Display Materials Lab at Chung-Ang University has previously contributed to the display industry through phosphor research. As time goes by, we are researching transfer technology using FSA (Fluidic Self Assembly) to produce Display Module using MicroLED, which is currently attracting attention as a next-generation display. The circuit and bonding technology required for the MicroLED Module demonstration are also being studied together with other companies.</p>	
Exhibit Description	MicroLED Module, Transfer Equipment (FSA), On/Off Circuit, PM Circuit, PCB Circuit Board
