Exhibitor Introduction	<p>The Ewha Womans University has the most intelligent and efficient team of people, not only in the field of color but also in other color related academic departments. The art college within the university is the pioneer of art and design in Korea. Therefore, the Ewha Color and Design Research Institute(ECDRI) has been established in the most apt location, situated right in the heart of the art and design school.</p> <p>The goal of ECDRI is to acknowledge the importance of color to the Korean people, seen from every aspect of our lives. Through research, experimentation and collaboration with different industries, we hope to create an effective system in color and color science.</p>
