

iMiD 2022

The 22nd International Meeting on Information Display
August 23-26, 2022 / BEXCO, BUSAN, KOREA

Company Name	Tomocube Inc.	Company Logo
Address	4th Floor, 155, Sinseong-ro, Yuseong-gu, Daejeon 34109, Korea	 Tomocube
President	Kihyun Hong, YongKeun Park	
Website	www.tomocube.com	
E-mail	info@tomocube.com	
Telephone	+82-42-863-1100	
Fax	+82-42-863-0108	
Exhibitor Introduction	<p>Tomocube was set up in 2015 with the Holotomography technology which made analysis of the 3D refractive index of a sample possible. This holotomography microscope can acquire physical property of the surface, internal structure, and variation of thin & transparent materials such as glass, which a conventional microscope cannot achieve. Tomocube's newly developed HT-X1 3D Holotomography expands its application in the display industry, which can analyze large-area samples while keeping a high resolution.</p>	
Exhibit Description	<p>Holotomography HT-X1 can analyze the structure and refractive index of large-area samples in high resolution.</p>	
Exhibit Product	Holotomography (HT-X1)
