

iMiD 2023

August 22-25, 2023 / BEXCO, BUSAN, KOREA

Company Name	ISSOFT CO., LTD	Company Logo
Address	M-Techno Center 140 Beon-gil, Gongdan-ro, 1003-1004 15845 GUNPO-SI/ GYEONGGI-DO Republic of Korea	
President	Seo Hyeonbae	
Website	http://www.is-soft.co.kr/light	
E-mail	support@issoft.co.kr	
Telephone	82-31-436-1422	
Fax	82-31-436-1420	
Exhibitor Introduction	Issoft's high-performance optical analysis hardware and software are widely and effectively utilized in the display industry for optimization of production processes and product inspection. It has significantly reduced cost and increased productivity by dramatically reducing measurement time and organizing data. Provide optical measurement solutions and build measurement facilities to meet customer needs.	
Exhibit Description	LMK(Luminance Measuring Camera) is a CMOS camera-based image luminance measuring system that enables simultaneous photometric and colorimetric measurements.	
Exhibit Product	LMK 6
