Exhibitor Introduction	Point Engineering manufactures core parts of semiconductor and display manufacturing equipment with accumulated skills for surface treatments and precision manufacturing. In addition, based on MEMS technology, active research activities are being carried out in various fields such as semiconductors and displays.	
Exhibit Description	PEC will be shown the massive micro-LED transfer technology by the vacuuming process and some unique parts for semiconductor testing fields.	
Exhibit Product	1) Main parts of the micro-LED transfer head 2) The semiconductor parts with surface treatments
