

iMiD 2023

August 22-25, 2023 / BEXCO, BUSAN, KOREA

Company Name	Instrument Systems Korea Co., Ltd.	Company Logo
Address	#608, Mega center, 124 Sagimakgol-ro, Jungwon-gu, Seongnam-si, Gyeonggi-do, Korea	 <p>Instrument Systems KONICA MINOLTA Group</p>
President	Mr. Markus Herbert Ehbrecht	
Website	www.kimsoptec.com	
E-mail	sales_korea@instrumentsystems.com	
Telephone	+82-31-776-0933	
Fax	+82-31-776-0936	
Exhibitor Introduction	<p>Instrument Systems Korea provides the optical and photonic market with high-quality light measurement products and systems for various optical applications. Our focus lies on Display, LED/MicroLED, and VCSEL testing of light and color accuracy values. Instrument Systems Korea offers the full range of products from Instrument Systems GmbH (www.instrumentsystems.com), and maintain their high standards of customer service. In addition, the company will continue to innovate and manufacture its well-regarded modules and systems for light measurement at its production site in Seongnam city near Seoul, known as the KIMSOPTEC Line.</p>	
Exhibit Description	<p>·Display Measurement ·Light Measurement ·UV-LED Measurement ·VCSEL Measurement ·VCSEL Array measurement ·Goniometer System ·AR/VR display testing Automotive Display Measurement ·NVIS Display Measurement ·Telescopic Optical Probe ·IVL System ·VCSEL LIV system ·LED Test Socket ·Temp Jig ·TEC Block ·Auto Collimator ·Optical Calibration System</p>	

imiD 2023

August 22-25, 2023 / BEXCO, BUSAN, KOREA

- Display Measurement Systems ·LED Tester ·VCSEL Tester ·Compact Array Spectrometer CAS140CT/D ·Imaging Colorimeter LumiTop2700/4000
- Telescopic Optical Probe Top150/200 ·Integrating Spheres ISP
- Thermoelectric Cooler TEC Block ·LED Test Socket ·Camera align Auto Collimator AC100

CAS140D: Spectroradiometer

LumiTop4000: Imaging Colorimeter

**LumiTop5300:
Imaging Colorimeter for AR/VR**

LumiTopX30: Imaging Colorimeter

**Top200:
Telescopic Optical Probe**

**MADT-500:
Telescopic Optical Probe for Viewing Angle**
