Telephone	02-3404-2700	
Fax	02-3404-9393	
Exhibitor Introduction	Synopsys Inc. Our commitment to making technology smarter and more secure, from silicon to software, is transforming the way companies design, manufacture, and market products—and it's transforming the end-user experience. Whether you're an automotive, mobile, financial, government, healthcare, aerospace-defense, or cloud company, we're ready to help you design the future of Smart Everything.	
Exhibit Description	This year at IMID, we are featuring and exhibiting Optical & Photonics Solutions together with EDA Solutions. Discover more at www.synopsys.com	
Exhibit Product	EDA & Optical Photonics Solutions Optical Solutions <ul style="list-style-type: none">LightTools – Illumination Design and Analysis	

iMiD 2023

August 22-25, 2023 / BEXCO, BUSAN, KOREA

- [CODE V](#) – Design, Optimize and Fabricate Reliable Imaging Optics
- [LucidShape](#) – CATIA Based Automotive Lightings Design, Simulation and Analysis

Photonics Solutions

- [RSoft Photonic Device Tools](#) – The Source for Photonic Design Software
