

# iMiD 2023

August 22-25, 2023 / BEXCO, BUSAN, KOREA

## iMiD 2023

The 23rd International Meeting on Information Display  
August 22-25, 2023 | BEXCO, BUSAN, KOREA

Company Name	ChemE Inc.	Company Logo
Address	#307, 199, Techno 2-ro, Yusong-gu, Daejeon, Republic of Korea	
President	Sung-Hyun, Kim	
Website	www.chem-e.com	
E-mail	shkim@chem-e.com	
Telephone	+82-42-716-3080	
Fax	+82-42-716-3081	
Exhibitor Introduction	ChemE is an R&D-based electronic material company that has strong strength in research and production of photosensitive materials for displays (LCD, OLED, $\mu$ -LED) and semiconductors. We are actively expanding new businesses such as development of integrated functional photosensitive materials for next-generation display and various photo-definable dielectric materials applicable to next-generation artificial intelligent 3D IC semiconductor packages.	
Exhibit Description	ChemE's main products are binder polymer, color photoresist, and transparent photoresist, and we also develop various ink-jet print inks (QD ink, encapsulation ink, bezel ink, color ink) and low-temperature curable photoresists for next-generation display	
Exhibit Product	Ink-jet print ink products for display (QD ink, encapsulation ink, Bezel ink, color ink)
