<b>Exhibitor Introduction</b>	KETI is the R&D institute specializing in electronics and IT under the Ministry of Trade, Industry and Energy(MOTIE) of the Republic of Korea. Since its establishment in 1991, KETI has been a strong partner of small and medium-sized companies in Korea. Despite the recent difficult external environment caused by COVID-19, it has served as a platform for corporate growth by customizing future promising technologies, capabilities, and infrastructure owned by our researchers.	
<b>Exhibit Description</b>	Display component and materials for future display technology.	
<b>Exhibit Product</b>	<b>TEG (Test equipment group) for OLED, QLED, micro LED, ACF and stretchable IML (injection molding layer) display.</b>
