

iMiD 2024

The 24th International Meeting on Information Display
August 20-23, 2024 / ICC Jeju, Jeju, Korea

Company Name	EMNI(Electronic Material and Ink)	Company Logo
Address	(15588) Pilot Plant 2, 705 Haean ro, Ansan si, Gyeonggi do, Korea	
President	Koh, Chang Hoon	
Website	www.emni.co.kr	
E-mail	emni@emni.co.kr	
Telephone	031-326-9941	
Fax	02-2629-4525	
Exhibitor Introduction	<p>■ Peace of mind with EMNI</p> <p>EMNI is an OLED material company supplying Red Hosts for an OLED emitting layer to DuPont Korea and Ducksan Neolux. This is being applied to the latest mobile phones and IT devices of, for example, Samsung Electronics and Apple through Samsung Display.</p> <p>EMNI has been also supplying many other crucial materials to the OLED industry, such as P-Dopant and Phosphorescent Green Dopant together with a strategic partner of Summer Sprout addressed HQ in Beijing and state-of-the art factory in Taixing, China.</p> <p>EMNI is a distributor of Schrodinger software in Korea and China which is physics-based material property simulation software became standard software for OLED material developers. Schrödinger, the world's largest simulation software development company for new drug discovery and electronic materials U.S based.</p> <p>EMNI wants to be a company who bring and inspire new technologies to Korea's OLED industry to keep its leading-edge position in a display industry.</p>	

iMiD 2024

The 24th International Meeting on Information Display
August 20-23, 2024 / ICC Jeju, Jeju, Korea

Exhibit Description	Phosphorescent materials & Simulation software for Display
Exhibit Product	Phosphorescent materials & Simulation S/W programs
