Exhibitor Introduction	Samsung Display provides cutting-edge display solutions worldwide. In 2007, it became the first company in the world to mass-produce OLEDs and currently leads the small to medium-sized display market. In the large display sector, the company is achieving a significant technological edge with QD OLEDs (Quantum-Dot OLEDs). Samsung Display is set to offer customers unique experiences and limitless possibilities, fostering sustainable growth.	
Exhibit Description	OLED & QD-OLED	
Exhibit Product	OLED (Smartphone, Tablet, Laptop, IT, Wearable, Automotive) QD-OLED (TV, Monitor)
