

iMiD 2026

The 26th International Meeting on Information Display
August 18-21, 2026 / BEXCO, BUSAN, KOREA

Company Name	AhTECH LTS	Company Logo
Address	#1912, 401 Simin-daero, Dongan-gu, Anyang-si, Gyeonggi-do 14057, Republic of Korea	
President	Hyun-Sook Lee	
Website	http://www.ahtech.co.kr	
E-mail	ahtech@ahtech.co.kr	
Telephone	+82-31-346-6036	
Fax	+82-31-346-6037	
Exhibitor Introduction	AHTECH LTS Co., Ltd. has been supplying advanced materials and equipment for a wide range of industries, including semiconductors, PCBs, displays, and batteries. With many years of experience, we provide innovative technologies and high-quality solutions to meet the evolving needs of our customers.	
Exhibit Description	1. UV Ozone Cleaner (Low pressure mercury Grid Lamps) - Surface cleaning (organic matter) and surface modification equipment using 184 & 254nm wavelengths of UV Grid Lamp 2. UV cure Systems (UV LED) - UV cure system capable of high Intensity control with a wavelength of 300~400nm 3. Non-Contact Sheet Resistance & Film Thickness Measurement System - Equipment that measures the surface resistance and thickness of conductive thin films using the eddy current principle non-contact - Capable of measuring thin and soft films without damage - LAB-SCALE products to inline modules and auto-mapping equipment for 300mm wafers	

IMiD 2026

The 26th International Meeting on Information Display
August 18-21, 2026 / BEXCO, BUSAN, KOREA

Exhibit Product	1. UV Ozone Cleaner 2. UV Cure System (UV LED) 3. Non-Contact Sheet Resistance & Film Thickness Measurement System
