

iMiD 2026

The 26th International Meeting on Information Display
August 18-21, 2026 / BEXCO, BUSAN, KOREA

Company Name	Songdo Optics	Company Logo
Address	48, 5th FL., 3, Incheon twoer-daero 54beon-gil, Yeonsu-gu, Incheon, Republic of Korea	
President	Hyongmin Hahm	
Website	www.songdooptics.com	
E-mail	ceo@songdooptics.com	
Telephone	010-9338-6447	
Fax		
Exhibitor Introduction	Songdo Optics is a premier technical advisory and distribution partner specializing in display metrology, optical measurement, and precision simulation software. We bridge global market leaders to the Asian display industries, providing high-precision optical solutions, electro-magnetic simulation software, and specialized technical consulting.	
Exhibit Description	At IMID 2026, Songdo Optics showcases a comprehensive portfolio of advanced electro-magnetic & charged particle trajectory analysis simulation software, high-precision metrology, and ultra-compact spectral sensors from our distinguished global partners. Explore our cutting-edge optical ecosystem designed to optimize next-generation display performance and manufacturing processes.	
Exhibit Product	● 2D/3D electromagnetic and charged particle trajectory simulation software. ● Optical metrology and spectral analysis systems for display evaluation. ● Ultra-compact, high-performance spectral sensors and smart spectrometer solutions. ● High temperature heating and drying chamber, motion xyz stage, heat and cooling plate stages with temperature chambers. ● IEC62977-3-6 MTF measurement system & IEC62977-2-1 Gamut Ring measurement system
