

# iMiD 2026

The 26th International Meeting on Information Display  
August 18-21, 2026 / BEXCO, BUSAN, KOREA

Company Name	Toray Research Center, Inc.	Company Logo
Address	2-11, Sonoyama 3-Chome, Otsu, Shiga	 Toray Research Center, Inc.
President	Yoshiki Makabe	
Website	<a href="https://www.toray-research.co.jp/en/">https://www.toray-research.co.jp/en/</a>	
E-mail	kensuke.inoue.a4@trc.toray	
Telephone	+81-77-510-9121	
Fax	None	
Exhibitor Introduction	Toray Research Center, Inc. is a leading provider of advanced technical solutions, offering contract-based analytical and research services. Our capabilities span a wide range of challenges encountered in R&D and manufacturing across multiple industrial sectors. By utilizing state-of-the-art analytical instrumentation, high-resolution structural characterization techniques, and rigorous physical property measurement methodologies, we deliver comprehensive and quantitatively robust evaluations. These capabilities enable the precise identification, interpretation, and resolution of complex material- and process-related issues.	
Exhibit Description	We support developing of various devices and materials, including LCD s, OLEDs, optical films, and TFTs. We have been developing analytical technologies for OLEDs for nearly 30 years.	
Exhibit Product	Structural and degradation analysis of OLEDs using STEM, GCIB-TOF-SIMS, etc.
