

# iMiD 2026

The 26th International Meeting on Information Display  
August 18-21, 2026 / BEXCO, BUSAN, KOREA

Company Name	Duksan Neolux Co., Ltd.	Company Logo
Address	21-32, Ssukgol-gil, Ipjang-myeon, Seobuk-gu, Cheonan-si, Chungcheongnam-do, Korea	
President	Bumsung Lee, Suhun Lee	
Website	<a href="https://www.dsnl.co.kr/">https://www.dsnl.co.kr/</a>	
E-mail	-	
Telephone	041-590-5400	
Fax	82-41-590-5499	
Exhibitor Introduction	Duksan Neolux specializes in developing OLED materials for displays. Through continuous investment in R&D and manufacturing, as well as ongoing technological advancements, the company has been at the forefront of the OLED materials industry while expanding into next-generation materials, such as conductive particles, photoresists, and PSPI materials. By diversifying its product portfolio and enhancing material performance, the company is not only driving advancements in OLED materials technology but also expanding into markets for high-performance advanced materials.	
Exhibit Description	Duksan Neolux will showcase its technological expertise and competitive edge by presenting its advanced OLED materials, photoresists, conductive particles and PSPI materials.	
Exhibit Product	Organic Light Emitting Diodes (OLED) Materials, Photoresists, Conductive Particles, PSPI (Photosensitive Polyimides) Materials etc.
