E-mail	om@is-soft.co.kr	
Telephone	+82-31-436-1422	
Fax	+82-31-436-1420	
Exhibitor Introduction	ISSOFT Co., Ltd. is a Korea-based optical measurement solutions company with over 20 years of experience, and the authorized Korean distributor of TechnoTeam (Germany) and Gamma Scientific (USA). ISSOFT supplies precision instruments for display metrology and provides technical support and calibration services to display manufacturers and research institutes across Korea.	
Exhibit Description	ISSOFT presents precision measurement instruments for display characterization, including TechnoTeam's latest LPG and LMK 7-128, alongside Gamma Scientific's multi-angle spectroradiometer system.	
Exhibit Product	<u>TechnoTeam LPG (Light Pattern Generator)</u> High-luminance, high-stability calibrated RGB projection light source for AR waveguide characterization. <u>TechnoTeam LMK 7-128</u> 128 MP imaging luminance camera for pixel-level luminance measurement and in-line DeMura correction. <u>Gamma Scientific GS-1164</u> Multi-angle spectroradiometer measuring color and luminance simultaneously at 0°, 30°, 45°, and 60°.
