Exhibitor Introduction	<p>Welcome to the LION (Lab. of Integrated Optics and Nanophotonics) at Kyungpook National University.</p> <p>Inspired by the spirit of a lion, our lab boldly explores the frontier of optical science and engineering. Recently, the research groups of Prof. Joonku Hahn and Prof. Muhan Choi have been integrated to form a stronger and more collaborative research environment.</p> <p>Our research mainly focuses on two areas: 1. Holography-based 3D imaging and measurement 2. Transformation optics and nanophotonics.</p> <p>At LION Lab, we aim to pioneer innovative optical technologies and challenge the limits of photonics.</p>
